

# Sea Kayaking the Bonifacio Strait

---

## THE REGION

The Bonifacio Strait is the strait which connects the islands of Corsica and Sardinia. The town Bonifacio, the most southerly on the island Corsica, is named after Boniface I, Margrave of Tuscany, who founded a citadel in its location circa 828AD. The landscape is a dramatic mix of limestone rocks, with a rugged coastline that features coves, white-sand beaches, turquoise sea and lagoons. The area is known for its stunning scenery and rich biodiversity, making it a protected international marine park, perfect to explore from a kayak.

## TRIP OVERVIEW

DURATION	SEASON	LEVEL
7 DAYS	APR – JUNE SEPT - NOV	BEGINNER TO EXPERIENCED

Experience the varied coastline of Corsica with a series of 6 kayak day trips, returning to basecamp each evening to the comfort and convenience of the bungalows. Every day, different trip is guaranteed, with 9 routes to choose from, with each one offering something different.

We meet at a cafe at 8am for breakfast and plan the day. Trips are planned daily, based on wind direction and group experience. We start paddling around 9.30 am and return at approximately 5.00 pm. Each day will involve 3-4 hours of paddling with 2 generous stops allowing plenty of time for swimming, snorkelling, practising kayak skills, relaxing and lunch.

In the evenings, after a well-earned hot shower, we enjoy a traditional aperitif with Corsican cheese, local ‘charcuterie’, fresh bread and French wine! Together we prepare the lunch (salads) for the next day and the hot meal for dinner. The menu of the week is available upon request. We can adjust it to your specific diet or allergies, just let us know.

## TRIP FEATURES

## KAYAK COACHING

---

### PERSONAL PERFORMANCE SKILLS

### PADDLING

### ROLLING

---

BRITISH CANOEING SEA KAYAK COACHING

SKILLS

CLINICS

As highly experienced guides and Jeremy being Approved British Canoeing as award provider, we can include coaching sessions into a Sea Kayaking trip. First timers and beginners are welcomed. Once on the beach and properly fitted into your kayak, you will be given full safety briefing and basic introduction to paddling techniques. On the water we paddle as a group. You will learn to paddle by doing so. Coaching tips will be provided, as required. As an experienced paddler you will be free to roam, while the less experienced are kept in closer check. A typical day trip involves generous breaks where some may like to swim and relax, while others may prefer to practise their kayaking skills. Guide Jeremy has a special way to teach rolling or other advanced sea kayaking skills. There is always the option to paddle a little further or faster. Over this tour, you can improve your sea kayaking skills and practical skills for a fun and safe time on the water while we explore the fantastic coastline of Southern Corsica.

All meals are included and prepared together as a group. We will go shopping together, making sure that all diet restrictions and wishes are taking care of. Of course we will enjoy Corsican cheese, local 'charcuterie', fresh bread and french wine besides the lunch salads and hot meals we prepare together after kayaking.
